PROFESSIONAL EXPERIENCE

Front-End Development Intern — Happieloop Technologies | Remote | Oct 2025 – Dec 2025

- Developed responsive and user-friendly web interfaces using HTML5, CSS3, JavaScript, and React.js for desktop and mobile devices.
- Built reusable React components and used React Hooks to improve code maintainability and support new features.
- Collaborated with a cross-functional development team using Agile/Scrum practices to plan work, review code, and improve UI/UX consistency.
- Applied frontend performance and DOM-rendering practices to improve responsiveness and user experience.

PROJECTS

CertiVerify — Certificate Verification & Fraud Detection | React.js, Node.js, Express.js, MongoDB, JWT, Tesseract OCR

- Built a full-stack certificate verification platform with student/admin portals, certificate IDs, authentication, document processing, and verification analytics.
- Implemented OCR-assisted certificate verification and PDF generation workflows for practical document processing.

Finova Pro — Personal Finance Platform | Node.js, Express.js, JWT, bcrypt, REST APIs, Chart.js

- Developed a personal finance application covering transactions, budgets, goals, subscriptions, authentication, analytics, exports, and financial forecasting.
- Built backend workflows and REST APIs to support secure application features and data-driven dashboards.

Student Dashboard | Next.js, TypeScript, Supabase, Tailwind CSS

- Built a modern student-focused dashboard with responsive interfaces, authentication/data integration, and reusable UI patterns.
- Applied Next.js and TypeScript to structure a maintainable, component-based web application.

Job Listing Platform | React.js, Node.js, Express.js, MongoDB, JWT

- Developed a full-stack job platform with authentication, job management, candidate applications, profiles, and resume/file upload workflows.
- Designed RESTful API workflows connecting the React frontend with Node.js/Express backend services.
